

DEATH ANGEL CLAIMS VICTIM

Mrs. Mollie E. Gatewood Dies at the Home of Mr. John Gatewood Sunday Morning

Our whole community was grieved to learn that Mrs. Mollie E. Gatewood, widow of the late James Gatewood, had died Sunday morning at the home of her grandson Mr. J. M. Gatewood, on High Street. Mrs. Gatewood was nearly ninety years of age but up until the last few weeks she enjoyed visiting her friends and despite her advanced age retained her mental faculties to a most remarkable degree. A woman of lovely christian character her acts of charity and goodness during her long life have been many. Always of a bright and cheerful disposition she radiated sunshine and happiness wherever she was. Truly there has never lived in this community a more generous hearted, lovely woman than she. Deceased is survived by three sisters, Miss Rebecca Martin and Mrs. T. K. Barnes, of this city and Mrs. Creth Taylor of Winchester, besides an especially large number of other relatives in the city and county.

Her life of goodness has made an impression on this community that will live for years and it should be the source of consolation to those that she has left behind to know that the world is better for her having lived in it and that she has gone to a "home not made with hands, eternal in the heavens."

Funeral services were conducted at the Baptist Church Monday afternoon at two o'clock by Rev. T. Benton Hill, with burial in Machpelah Cemetery. The Advocate extends sympathy to the grief stricken family.

BROTHERS MEET IN FRANCE

Lieutenant Gus Welsh, of Lexington, who has been in France for several months, recently met his brother Barry in the trench of France, according to a cablegram received a few days ago by his mother. Neither knew of the whereabouts of the other except that both were serving under Uncle Sam's flag. Needless to say the meeting was a most pleasant one. The Welsh boys are nephews of Mr. A. M. King of this city and are known to many of our people.

Come to the "Spelling Bee" at the Kiddville Church next Saturday night at 8 o'clock and help the girls of the K. D. Class pay for their piano.

AUTOMOBILE KILLS MAN

An automobile driven by Burrell Bourne accompanied by William Thompson and Ben Turner, Jr., of this city struck a colored man in Winchester Sunday morning from the effects of which he died a few hours later. They had gone to Winchester to get the Mt. Sterling supply of Lexington Heralds and Leaders.

The accident was witnessed by two men and the boys were exonerated at the Coroner's inquest. It was shown that they were driving very slowly and that the negro man, who was past eighty years of age, had passed in front of the machine and then turned and stepped directly in its path. It was a most regrettable accident, but the friends of the boys rejoice in the fact that they were in no way to blame.

YOUNG HOLDS NEW LAW VALID

Making It Illegal to Bring Liquor From Wet to Dry Territory For Personal Use

In the case of the Commonwealth of Kentucky vs. Tom Barbour, tried last week in the Rowan Circuit Court, Judge W. A. Young held the recent Act of the Legislature, making it illegal to bring liquor, even for one's personal use, from wet to dry territory, constitutional and valid. This Act has been the subject of much discussion throughout the State. In one case, some years ago, our Court of Appeals knocked out a city ordinance, drafted along the same lines, and went so far as to say that this was beyond the power of the Legislature. This, however, was years ago. Laws change just as the sentiment and views of men change. There is no doubt about the people wanting a dry territory to be dry, without interference from wet centers and no technicalities and finely drawn legal distinctions should stand in the way of a dry community being dry. Even the wets are now in favor of the County Unit, hence we say, if a county wants to be dry, the law ought to assist, rather than stand in the way of the expressed wish of the people. Doubtless Judge Young entertains similar views. At least his decision would so indicate. The lawyers interested in the case submitted it on an agreed state of facts and immediately took steps to perfect an appeal to the Court of Appeals, with a view of getting an early hearing, so that the many cases appealed by City Attorney Chiles can be settled at the coming term of our Circuit Court.

BIG CALL FOR OCTOBER

Forty-four From This County to Go to Camp Sevier Oct. 7 to 12. Biggest Call Yet Made

Montgomery county has been called upon to furnish forty-four white general service men to entrain for Camp Sevier, Greenville, S. C. on October 7 to 12. At present there are only forty-three men left in Class 1 and there are quite a few of them that are not likely to be called at this time. If this county fills its quota it will be necessary to call some of the men recently classified who registered under the new draft of 18 to 45. However, this will not be done unless an order is received to this effect. The following is a list of men who remain in Class 1, not including those who registered September 12:

Joe Igo.
George Reffitt.
Samuel Walter Moreland.
Robert Amburgy.
Thompson Johnson.

YOUNG COUPLE SURPRISE FRIENDS

Mr. Porter Huls and Miss Bernice Moore Elope to Jeffersonville, Ind., And Are Married

The many friends of Mr. Porter Huls and Miss Bernice Moore were surprised to learn Saturday night that they had eloped to Jeffersonville, Ind., that afternoon and were married. They were accompanied by Mrs. Holly Gillaspie and Miss Martha Tharp. Though the young couple had been devoted sweethearts since childhood their marriage coming at this time was a complete surprise to many relatives and friends. The bride is a daughter of Mr. and Mrs. R. F. Moore and is an exceedingly sweet and accomplished girl, who by her gracious manner and endearing personality has won a warm place in the hearts of all who know her. The groom is a son of Mr. and Mrs. Wm. Huls and graduated from the local high school the past term. He is a clean-cut, straight-forward, upright young man and we feel will make the girl of his choice a true and devoted husband. Only last week he entered Centre College at Danville and we are informed will continue his studies at that institution. The young people arrived in this city Sunday for a few days' visit to relatives. The Advocate joins the many friends of this popular couple in extending heartiest congratulations and best wishes.

WARNING TO MERCHANTS

Mr. S. S. Pinney, Food Administrator, reports that two merchants were fined last week for operating as wholesale dealers in eggs and poultry without government licenses. We are sure both cases were caused by the merchants not being familiar with the law and are warning all others that sell eggs to a dealer that he must have a special license but merchants selling direct to the consumer does not need a license of this character.

Mr. E. S. Cunningham has sold his residence on Samuels Avenue to Mr. David Howell, possession given January first. Mr. Cunningham will move back to his farm. The price paid was private.

DEATH CAUSED BY PARALYSIS

Mr. William N. Anderson Dies Friday Night Following Stroke of Paralysis

Mr. William N. Anderson, for many years one of our most substantial farmers and highly respected citizens died at his home in this city late Friday night following a stroke of paralysis.

Mr. Anderson had been a resident of this county for many years, and had the respect of all who knew him. A man of strong convictions yet with a heart full of the elements of human kindness he made and retained a host of friends that will ever hold in memory his sterling traits of character. Mr. Anderson had been in poor health for some time past and had moved from his farm to this city to make his home. He is survived by his wife and two sons Walter and Charles Anderson of the county, besides many relatives throughout this section of the state. Funeral services were conducted at his late residence on East Main street Sunday morning by Rev. W. R. Dye with burial in Machpelah Cemetery. To the bereaved family we tender our sincerest sympathy in their hour of sorrow.

REFUSES TO HONOR U. S. MEAL ORDER SLIPS

We are informed by Mr. J. C. McNeal, local C. & O. agent that a certain Maysville street restaurant, conducted by a man of German parentage, last week failed to honor Government meal order slips presented by five boys from Menifee county who had recently been inducted into military service. These slips are issued to each boy and are good for 75 cents, redeemable by the U. S. Government. The reason given was that "We don't do that kind of Business." Later the boys were taken by Mr. McNeal to the Greek restaurant, the proprietor of which, Mr. Telma Salmas, gladly gave the boys all they wanted to eat and stated that neither the boys nor the Government owed him a cent as he expected to soon be in the army himself. Why the difference?

WAR TROPHY TRAIN COMING

A Special Train Displaying Relics Captured From the Germans Will Be Here Sept. 30th.

On Monday, September 30th. Mt. Sterling will be visited by the Government War Trophy Special, which is traveling over the country in the interest of the Fourth Liberty Loan. The train will stop here three hours and will be open to the public from 11 to 12 in the morning and from 1 to 2 in the afternoon.

The War Trophy Special is made up of seven cars loaded with every form of death-dealing device which has been employed by the Germans in their war of frightfulness. The entire exhibit comprises materials of war captured at various times and places from the Germans by the allied armies. Two cars are flat cars loaded with captured cannon and a captured German tank, probably the first opportunity the people of this section will have of seeing one of the steel-clad, death-dealing monsters which are at present playing so large a part in the war. The other cars are filled with shells, gas masks, torpedoes, liquid fire ejectors, hand grenades, German helmets and in fact every form of war appliance which can be carried. Accompanying the train are several noted speakers and war experts who will take pleasure in explaining the various devices. A band will also accompany the train and it is hoped that an enormous crowd will take advantage of this opportunity to see this elaborate and educational as well as highly interesting display.

GREAT BAND COMING SOON

Great Lakes Naval School Band to Be Here October 7th and a Big Day Is Expected

The Great Lakes Naval Training School Band of 60 pieces will be in Mt. Sterling Monday, October 7th and it is hoped to make this a great day in the history of Mt. Sterling. The band is coming in the interest of the Fourth Liberty Loan and is a part of the great band of 500 pieces which is stationed at the Great Lakes Training Station and is personally directed by John Phillip Sousa, the greatest of all bandmasters. Monday, October 7th is expected to prove a Red Letter Day in the Fourth Liberty Loan Drive, the city will be decorated in gala attire and the various war societies of the city will have a prominent place on the program. Prominent speakers will be here for the occasion and it is earnestly hoped that one of the largest crowds ever assembled in the city will be here on the above mentioned day. Let's all pull together and make Monday, October 7th a day that will long be remembered.

The hour of the band's arrival and other details of the big celebration will be published in a later edition.

PROF. GAINES MARRIED

News has been received here of the marriage of Ensign John P. Gaines, formerly a professor in the local high school, to Miss Louise Shanklin, of Fleming county. Both of the young people graduated from Georgetown College in 1915. When war was declared Prof. Gaines enlisted in the navy and was transferred to the Officers' Material School at Great Lakes. On June 1 he secured his commission as ensign and was sent to Annapolis, where his class closed last week. Being given a ten day leave of absence before sailing upon a transport he came to Kentucky and the marriage occurred at the home of the bride. Prof. Gaines has many friends in Mt. Sterling who will be interested in the above announcement.

MADE FIRST LIEUTENANT

News has been received here stating that Second Lieutenant Thomas Vansant has been promoted to First Lieutenant. Young Vansant is the eldest son of Dr. and Mrs. J. A. Vansant and is stationed at Camp Funston. He is a sterling young patriot and deserving of the promotion.

Certain-teed

Roofing

Certain-teed renders a war service.

Certain-teed saves war supplies, because it is made of materials which have no use in war products. It serves war needs because it provides our armies, and peoples everywhere, with efficient, economical roofing.

Certain-teed saves war transportation, because it is so compact that it takes minimum car space, and so easy to handle that it requires the minimum time to load and unload.

Certain-teed saves war labor. It can be laid in less time than any other type of roof; and no skill is required—anyone who will follow the simple directions that come packed in the center of roll can lay it correctly.

The durability and economy of **Certain-teed** are recognized the world over, as proved by its enormous sale. It is now the standard roof

for factories, office buildings, hotels, stores, warehouses, garages, farm buildings, etc.

Guaranteed 5, 10 or 15 years, according to thickness. Sold by best dealers everywhere.

NATION WILL PAY BACK STOLEN HOUR

At "the witching hour" of 2 a. m. on the morning of October 27 the clocks of the nation will be set back an hour, but you, any every other individual in the United States, will be richer by 182 hours, because what no one human being can buy—time—has been so liberally added to your possessions by the "daylight saving hour" that by October 27 you will have gained the equivalent of twenty-two eight-hour working days. The hour that was filched from you on March 31 will be returned with undreamed-of interest.

The stupendous total of health and wealth and pleasure that have been added to the nation's assets because of the daylight saving may not be properly computed in terms of either time or money, but the war gardeners of the nation—and there are some 5,000,000 of them—will have gained a net total of 11,644 years! There is no limit on the "interest" paid on the hour you loaned to

Father Time on a cold, dark morning last March.

This enormous gain—almost incredible to the human mind—is arrived at by figuring an hour a day to each of the 5,000,000 soldiers of the soil, which gives 910,000,000 hours, of 113,750,000 days, or 311,644 years.

As for the coal that has been saved by the hour which was quietly added to the nation's assets on Sunday morning, March 31, it is estimated that the United States will save between 1,000,000 and 1,500,000 tons.

And at every cantonment in the country there is going to be such joy over the extra hour that the "sojer lads" may spend in slumber, that it is even said Irving Berlin's song, "Oh, how I hate to get up in the morning" will suffer a temporary lapse of popularity.

Big Ben's voice booming over the Atlantic ocean, will be answered by cathedral chimes in this land, by pert little alarm clocks, and by staid, self-respecting town hall clocks, but

the chorus of the clocks will undoubtedly extend thanks to the nations across the waters that inaugurated the daylight saving plan.

In the United States the daylight saving was established by Congress in March, 1918, as an effective method of conserving the health, wealth and mineral resources of the nation. The adoption of the plan by the United States is attributable to its successful operation in Great Britain, France, Italy, Germany, Austria, Holland, Denmark, Sweden, Norway, Portugal, Australia and Iceland.

Busy times in the matter of setting back the city's clocks are in store for those intrusted with looking after the most delicate and temperamental of all forms of mechanism.

And the song of the moment will be, "Backward, turn backward, oh, time, in your flight."

WE ARE READY

(By Juliet Wilbor Tompkin.)

Do you know anyone who can go and buy a new diningroom table while a Liberty Loan Campaign is on? I don't.

Is there any joy in new curtains when, looking through them, we see the bands marching to call every free dollar to the colors? Not a bit. The old curtains, washed and mended, had made a happier frame for our daylight.

Can you get a new car while the Government is explaining to you how every dollar is a pound of energy turned against the Hun? And if you do, can you ride forth in it without an impulse to apologize and explain? You can't possibly.

Does the soft skin clamor for purple and fine linen when khaki flannel is good enough for those who go overseas? I doubt it.

Is pleasure—pleasure that must be bought—as much fun as it used to be? It doesn't compare for an instant with the joy of putting a shoulder to this great wheel.

Give till it hurts? We can't; for that is the great discovery of this war—giving doesn't hurt. The only thing that hurts is withholding. We spent till it hurt! Now here we are, taught and trained, ready for your call, Uncle Sam. Just tell us what you want.

Mary Would Have Gone a-Begging for Bid From Uncle Sam

THE movies are going to be very much in evidence in the campaign for the Fourth Liberty Loan. Every star of note in the United States has made a picture for the drive and every movie house in the nation will show a different one of these pictures every night of the drive.

That is the plan of the treasury department and a thorough system of distribution which has been worked out with the help of the exchange men and the exhibitors assures that the plan will be accomplished. Of course the so-called big four of the screen will be in evidence—Pickford, Fairbanks, Chaplin and Hart.

"If they hadn't asked me to make one of these pictures," said Mary Pickford, "I would have been around begging for a chance."

MARY PICKFORD.

In all of the pictures, scenarios for which were written by the best talent in the country, an attempt has been made to give the audiences an interesting short story as well as a message about the bonds. They are short but pithy.

SOLDIERS' MEAL TICKET IS YOUR LIBERTY BOND

To feed one United States soldier for one year it takes:

Beef, 475 pounds,
or
Bacon, 275 pounds.
Wheat flour, 413 pounds.
Potatoes, 458 pounds.
Beans, 55 pounds.
Prunes, 27 pounds.
Coffee, 26 pounds.
Sugar, 73 pounds.
Syrup, 7 pounds.
Condensed milk, 11½ pounds.
Butter, 11½ pounds.
Lard, 11½ pounds.
Vinegar, 3½ pounds.
Salt, 13½ pounds.

Which is one of the reasons for Liberty Bonds.

Slackers

Ten little slackers standing in a line;
One joined the Army, then there were nine.
Nine little slackers discussing what they ate;
One gave up wheat and sweets, then there were eight.
Eight little slackers looking up at heaven;
One saw an airship there, then there were seven.
Seven little slackers, talking politics;
One joined the Navy, then there were six.
Six little slackers gave thanks they were alive;
One picked up a German's "clock," then there were five.
Five little slackers, slacking more and more;
One heard a soldier talk, then there were four.
Four little slackers trying life to see;
One saw a Belgian babe, then there were three.
Three little slackers bound to stick it through;
One went to building ships, then there were two.
Two little slackers wishing war were done;
One joined the gay Marines, then there was one.
One little slacker looking hard for fun;
He bought a Liberty Bond, then there was none.

WHEN JOHNNIE COMES

MARCHING

Few of us appreciated just all it meant when we watched the rookie Sammies march down to the depots on their way to the concentration camps a few months back. Some of us, refusing to believe that the war would last until they reached the front, were inclined to smile at all the fuss that was made then. Some others, who had tasted in the bygone years of the sorrows of conflict, were deeply impressed. And still some others, as yet untouched by the call to arms, were mildly indifferent.

But now all of us are coming to realize what it really means.

Each succeeding casualty list carries some familiar name, some one we knew or whose people we know, or whose locality spreads out before us like a picture when we read his name.

The gaunt finger of affliction may point to most of us any day.

It seems a long road to the finish at this time. We are only beginning to taste the bitter draught which England, France, Serbia, Roumania, Belgium, Russia, and a dozen other countries, participating in the fight have been drinking for the last four years. And it may yet be for us to drink deeply too.

But sooner or later there can be but one end, and Johnnie will come marching home triumphantly. World freedom will be saved, our own future insured.

And when that happens all of us will be down along the line of march, our hats off, our hearts full of over-

flowing, our choked voices doing their very best to cheer the conquering heroes. It will be one of the big events in our lives.

BUT WHAT OF THE MAN WHO DIDN'T BUY A BOND?

God help him, where will he come in?

Don't be THAT MAN!

Get ready to buy your bond.

You Can't Eat Meat 100 Miles Away

Preparing meat is only a part of Swift & Company's usefulness.

The finest meat in the world wouldn't do you any good one hundred miles away from your table.

Swift & Company efficiency has made it possible to place complete lines of products in the smallest and most remote communities.

To be sure the work is done well Swift & Company, through its branch houses and car routes, brings the meat to the retail dealer for you.

Swift & Company lays out car routes covering towns—big, little, medium size—which are not served by a Swift branch house.

Salesmen find out in advance what is wanted by the dealers in every town.

They are followed by refrigerator cars loaded with retailers' orders, which are delivered at each town—fresh, clean, and sweet—once or twice each week.

Swift & Company operates a large number of car routes like this, from fourteen distributing plants.

This is a necessary and natural part of the packers' usefulness. It fits into the industry in an orderly, effective way. It makes better meat cheaper from one end of the land to the other.

Run-Down People Vinol is What You Need

Weak, run-down nervous men and women need Vinol because it contains the most famous reconstructive tonics in an agreeable and easily digested form:—Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates.

We guarantee there is no tonic equal to Vinol.

HERE IS PROOF

Detroit, Mich.

"I got into a weak, run-down condition, no appetite, tired all the time and headaches—but had to keep around and do my housework. I read about Vinol and tried it—within two weeks I commenced to improve, and now have a splendid appetite and feel stronger and better in every way."—Mrs. John F. Watson.

Texarkana, Texas.

"I keep house and I was weak, run-down and nervous, back ached a good deal of the time, so it was hard to take care of my chickens and do my work—Vinol has restored my strength, and my nervousness has gone, so I can do my work as well as ever. Every run-down woman should take Vinol."—Mrs. Emma Britt.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

LETTER FROM "OVER THERE"
August 18, 1918.

Dear Mother and All:
Sunday afternoon and I am thinking of you and will take pleasure in answering your kind letter just received that was mailed July 20th. Was glad to know that you were all well as could be. You said Gertie was not feeling so well, hope she is all right by this time.
I haven't been sick a single day since I left the States. It seems as

though I gain fifteen or twenty pounds every month.

I wrote grandmother a special letter a few days ago, I know it will please her for you know how she is about anything like that. I always speak about her in every letter I write to Aunt Duds folks.

Well mother, everything is looking fine over here, that is gardens and pastures, that is about all they raise. There is quite a few wild flowers; more than we have in the States. I gather a bouquet and take to the Y. M. C. A. nearly every morning. I think of you when I pluck them for I know how you always love flowers.

I suppose you will get my Liberty Bond next month. I had it made to you; it is for a \$100 bond. You can cash it any time at any bank. Did you ever get my insurance papers. If you haven't, be sure and let me know for you should have them by this time.

Grover was so glad to know that you had a good crop. You will have good luck just now as soon as I have time I will send you a watch fob.

Well, tell all the kids I would like to see them and for them to be good children and to write me.

With love to all, I remain as ever,
Your son and brother,
CARL.

FINANCING FREEDOM

Money doesn't care who has it, nor what it is spent for.

And the Lord shows his contempt for it by the people he gives it to.

Yet the world's greatest advancement came after its invention.

Not until the became recognized as a medium of exchange was long distance commerce possible. Up to that time international business had been plain bartering.

Civilization followed closely in the wake of pioneering commerce. Dominating civilization, always, was despotism. Liberty came trailing along many years later.

Myriad and often ignoble purposes have been served by money. It is utterly conscienceless, frequently cruel, seldom sympathetic. It has made tyrants of men, despots of rulers, autocracies of nations. Humanity's welfare is not always its chief concern.

But money's day of reparation, its day of redemption, it at hand. And YOUR day of opportunity.

With every dollar at your command you now may participate in the financing of freedom.

For that's what the Fourth Liberty Loan means. Not only for America but for all the people of earth. Not only for you but for your little brown brother half way round the world. Not only for the allies but for poor, mistaken, wandering Russia. Freedom, eventually for all of us.

It is money's chance to square itself for the injustices of centuries. It is your chance to enlist in the brotherhood of man. It is our chance to give despotism, tyranny, autocracy, PRUSSIANISM, its death-blow.

It is the best investment on earth today, financially and morally. The safest, the sanest. It is without risk.

The man who looks into the future at all will not fail to see the wisdom of making the most of this chance. Don't be among the careless.

Your Greatest Asset

is your health. Without it no success in any line is possible. Modern business and industrial life tends to rapidly break down the bodily powers of resistance against the inroads of disease and our manner of life tend to derange the organs of digestion. These ailments at first are trifling and the person thinks them of small consequence; but to allow them to run on nearly always results in permanent or serious injury to the constitution. When the trouble is small is the proper time to correct it. Recently there has been placed on the market a preparation called Jay's Pepsotone which is unequaled in the treatment and correcting of stomach and liver troubles. Often just a single tablet will suffice to bring you back to normal and when the trouble is of long standing a short course as needed usually brings immediate and lasting benefit. All druggists sell it. It contains no habit forming or injurious drugs and promptly relieves all distressing symptoms. Guaranteed to relieve or money refunded. Will not purge or gripe or cause nausea. 50c. and \$1 at dealers or send direct by the Pepsotone Co., Huntington, W. Va.

HOW TO MEET PRESENT CONDITIONS

Of present conditions, Mr. Selfridge, one of the leading business men of the United States, says:

"The business man who fails to realize that right now—in war time—he should drive ahead with his advertising at greater speed than ever before has over-looked a golden opportunity. At no time in the history of our business has advertising paid such large returns as right now. My only regret is that I can't buy more space."

EXIT MR. LOGAN

The farmers of Montgomery County have real cause to rejoice in the news that Mr. M. M. Logan, Chairman of the State Tax Commission has tendered his resignation and expressed a desire to return to private life. It is also tipped by the daily newspapers that a Mr. Gregory, of Mayfield, is to succeed him. We do not know Mr. Gregory, in fact, we never heard of him before, but we hail with delight the change and are willing to take a chance on Mr. Gregory or any one else, feeling sure our people could not fair worse before him. While Mr. Logan has not been the whole board in name, he has in fact, since the others seem to be of the "Me Too" variety and seem willing to let the gentleman with the Sampson locks and smooth tongue run the whole thing. Last year, our County Assessor, inspired by Mr. Logan, raised our assessment some two millions of dollars. Not content with this unprecedented increase, a million more was demanded by Mr. Logan's board. Now our Tax Commissioner is demanding another increase of twenty per cent. on farm lands, saying he is acting under instructions from Mr. Logan, which will possibly add two millions more. Mr. Logan knows nothing whatever about the value of property in Montgomery county, but does know that under his new Jesse James tax law the State Tax Commission can continue to boost values. Our landowners might do better before Mr. Gregory. The Lord knows they could do no worse. Hence we say by all means Gov. Stanley accept Mr. Logan's resignation and do it quickly. He might change his mind. In his desire to retire to private life, we wish him God's speed.

Every fairminded resident of Mt. Sterling will admit that nearly all of our streets are in better condition than they ever were in the city's history. One notable exception, however, is the west block of Locust Street, between Richmond Ave. and Sycamore Street. All that is left of it is the right-of-way and even that is in worse condition than any dirt road in the county. We do not know what the trouble is, or why it has not been repaired, but before winter comes something ought to be done about this. Mr. Mayor and gentlemen of the city council, give west Locust Street your prompt and serious consideration.

TO PLACE BAN ON BUILDING

The Council of National Defense, through the War Industries Board, has asked the Kentucky Council of Defense to act as its representative in the curtailment of non-war construction. In the future, permits must be secured for all construction projects, except for repairs or extensions to existing buildings involving a cost not to exceed \$2,500. All persons contemplating any kind of construction work must make a statement of the facts, under oath to me. An investigation will then be made as to the necessity of same and a recommendation made to the State Council of Defense who will pass on same finally. As all manufacturers and dealers of building material have been advised of this plan, persons will at once see the necessity of complying with the order. Every building now under construction as well as those contemplated are affected thereby. In issuing the above order the State Council gives the following warning: "Please remember in passing upon the applications for building permits that this Nation's business—your business and our business—is war, and all other considerations must be subordinated to the permanent purpose of winning the war." A temporary ruling has been made allowing the completion of buildings where substantial portion of same has already been constructed pending further action by the War Industries Board. All persons now building or contemplating building will please govern themselves accordingly.

A. S. JOHNSON,
County Chairman.

The far-seeing buyer will appreciate the efforts and judgment of

THE WALSH COMPANY,

discriminating showing of Fall styles which is broader in variety and lower in price than in normal times. Surely conditions warrant the greatest care in styles, weight, color and length as well as quality. We have covered almost every field of want for Autumn and the approaching winter in mens', boys' and children's overcoats and other outer garments.

Our showing of Gabridine Army serges and Huddlesfield Rainproof garments in standard 52 inch coats and the shorter the better garments is complete on our first floor. The Washington mode, the standard four button fly front velvet or cloth collar overcoat in standard colors weights and standard clothes. The double breasted form fit coat for the younger fellow and the officers coat for younger men and boys.

The 52, inch Chesterfield for-taller men and the military belted Nester are all to be seen on the first floor at Walsh's. Our West End knit fabrics in Men's high grade sport coats have no comparison here.

That the Walsh Company has gone beyond the ordinary for the fall and winter of 1918-19 will be clearly visible upon your visit. No high prices as all overcoats have been on contract for many months and in numerous instances we have owned the goods in the piece for one year, having it made into the latest fall garments this season.

"RUN OF DRAFT" WILL FURNISH MEN FOR NAVY

The program under which the navy and the marine corps will secure the men hereafter needed was announced yesterday by Secretary Daniels after conference with representatives of his department, the marine corps and the Provost Marshal General's office. The navy is to have an average of 15,000 men monthly, while the marine corps will get 5,000 monthly for four months and 1,500 each month thereafter.

Of the navy's allotment of 15,000 it may enlist or enroll men who have special qualifications for certain work, but the remainder will come from "the run of the draft," navy officials calling out skilled men to meet the special needs of the service.

Men who now hold or may hereafter be given deferred classification on account of dependency will be permitted to enlist in the navy as the higher pay given is expected to do away with the possibility of hardships to the dependents. Those who have seen previous service in the navy also will be permitted to reenlist, in no case, however, not even from the draft, will the navy accept men who cannot read, write and speak the English language, nor will it accept men not citizens of the United States or conscientious ob-

jectors.

Much the same system will be followed in enlisting men both in the navy and marine corps. Naval recruiting stations will be known as "mobilization centers," each having a definite territory to serve and they will be established at central points. Marine corps recruiting offices also will be kept open.

Cincinnati will be the mobilization point for Ohio, Indiana, Kentucky and Tennessee.

NOBLE WORK DONE BY LOCAL YOUNG LADIES
The young girls of Mt. Sterling and Montgomery County deserve commendation and appreciation from their elders for the energy and patriotism they have shown during the summer months just passed. Many of these young girls not yet out of their teens have given their entire vacation to worthy work, either sewing or knitting for the Red Cross and the war orphans of Europe or working in many ways to make money to assist in the various kinds of war work being supported by our community.
One of the most splendid pieces of work done by our girls has been the promotion of the community spirit among the girls of the County.
Clubs have been organized all over the county for the vacation weeks, the purpose of which organizations has been to encourage team work in worthy enterprises. The leaders in this work were Miss Mary Beall, Miss Margaret Hadden, Miss Catherine Howell, Miss Frances Kennedy, Miss Catherine Stofer and Miss Catherine Hedden. The girls club of Camargo, under the direction of these young girls made during the summer eighty-five dollars and over one hundred garments for Belgian Relief work. At Grassy Lick, twenty-five dollars and fifty garments for the same cause. At Spencer, forty dollars and a large number of garments. At Levee, a nice sum of money was made from a pie sale and invested in warm winter goods, which is being made for these forlorn war orphans. Together all the girls of the town and county undertook and carried to a successful finish the management and support of a Red Cross Tea Room for the period of one month. The proceeds, from this undertaking netted the local Red Cross Chapter over one thousand dollars.
Through the hottest days of the month of August these young girls have cheerfully worked like bees, soliciting, cooking, making ices, serving meals, working to reach the high goal they had set for themselves.
The people of Montgomery should be proud of these daughters, no less than the sons who have gone out to fight for her. Many of these same girls are filling responsible positions left vacant by men called to the colors and proving themselves capable and efficient in every respect.
Let the older people cooperate with and encourage our girls who are proving their patriotism.

OUR BANK SAVINGS SAFE UNLESS GERMANY WINS

There seems to have been a very insidious propaganda carried on, obviously by secret service agents of Germany, to the effect that savings banks deposits are to be confiscated. It is difficult to believe that any person in America would credit such a report for an instant. Secretary McAdoo says that the absurdity of these statements is manifest, but in order to allay the fears of a few who might be alarmed by such reports, he repeats officially that these rumors are wholly baseless.

There is but one thing that will in the least put in danger of confiscation the savings of the American people, whether deposited in savings banks or other banks or invested in Liberty Bonds or any other investments, and that one thing is a German victory. It is not the American Government that our people should fear, but the German Government, and with the American soldiers fighting as they are in France and the American people supporting their Government as they are in America, the American people, their liberty, their rights, and their savings are safe.

The United States instead of confiscating or endangering the savings and other property of its people is defending them and theirs with all the irresistible might of this invincible Republic.

GIVING

(By Mary Carolyn Davies)

Just money! That is all we're asked to give, He gave his life, Jim. He'd have liked to live For Betty—bless her shy young heart—had only The week before he left, put on his ring.

How long her life will be for her, how lonely With nothing of him but remembering!

She never flinched, nor he, my son. They gave;

She working still, and Jimmie in his grave.

And now today we're asked again to save,

And give, give, give the country what we've sweat

And toiled to earn. It's hard for all—and yet,

We safe, we calm, we fortunate, are living,

I wonder, dare we, dare we call this giving!

The world is turned by the wheels of Vanity, and flattery is the grease. Everybody is vain of something or other. Flatter! flatter! flatter! That's the way to get on! Some people want it laid on with a shovel. Others you have to use a fine camel's hair brush! But the principle and precept of a success in life are to flatter.

"Everything Goes In War, 'Says Jackie' Even a Fellow's Hair"

"O H, very well. We're the bald-headed twins if you say so."

So say these two members of the U. S. Naval Band, Cleveland station, which is on tour in the Fourth Federal Reserve District to boost bond sales for the Fourth Loan. You can't get a "rise" out of either of these boys by reference to their unthatched domes. Witness the smiles.

"Everything goes in war," says the baldy with the big horn, "even a fellow's hair."

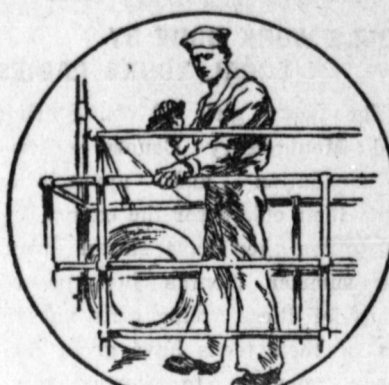

That one is Edmond Inski, who enlisted with his E flat tuba the minute the band was talked of. His "twin" is A. F. Gerloch, who was financial secretary of the musicians' union in Cleveland before enlisting. Inski is 21—Gerloch is 26.

War Trophy Trains to Push Liberty Bonds

BOOTY TAKEN FROM HUN WILL BE EXHIBITED IN THIS DISTRICT.

Thousands of residents of the Fourth Federal Reserve District are to have a chance in the next three or four weeks to take in their own hands and inspect helmets which have been taken from German fighters, rifles captured by our Yanks and their allies on the battlefields of Europe and other war trophies which have been shipped to this country by General Pershing and the commanders of the British, French and Italian armies.

The trophies will be aboard two Uncle Sam War Trophy Trains which will tour the district stopping for two hours at an average of four towns a day. The Central Liberty Loan Committee at Cleveland and the Railroad Administration are responsible for the trains.

OUR boys who have gone to the navy are constantly on the alert for the submarines which menace their army comrades on the long trips across the Atlantic.

One \$100 Liberty Bond and one \$50 Liberty Bond will equip an enlisted man in the navy for one year. Or the same two bonds will feed him for a year.

Cards From Boys Will Urge Buying of Bonds

Ten million sets of post cards—five in a set—have been sent to Europe by the War Loan Organization at Washington to be distributed among the boys of the American Expeditionary Forces.

By this time they probably have been put in the hands of the boys over there and some are probably on their way back to this country.

Each card bears a message from the boy to the home folks urging the home folks to invest in Liberty Bonds.

The cards bear photographs of tanks, guns, ammunition, etc.—things which the boys need and which the home folks' money will buy. The cards will be coming back soon in large numbers. Ohio and Kentucky and West Virginia and Pennsylvania will be receiving their share of them.

Ralph Stickle.

With each train will be a detail of United States soldiers assigned by the War Department, a corps of Liberty Bond salesmen, and prominent speakers.

Each train will carry three carloads of trophies and exhibits and a sleeper for the guard of soldiers, salesmen and speakers. One of the trains will be in charge of Ralph Stickle, Cleveland traction counsel and former journalist.

Complete equipments used by Americans, Canadians, British, French and Italian soldiers will be on the trains. There will also be anti-air craft guns, depth bombs used in submarine hunts, aerial bombs such as are dropped on the cities along the Rhine in retaliation for the bombardment of Paris and the bombing of London by the Hun, captured German field pieces and rifles taken by our boys at Chateau Thierry and Castigny and complete sets of the decorations awarded for bravery to the soldiers by the different nations in the war. The German decorations have been taken from the breasts of captured Huns.

Arrangements are being made to care for great crowds at the sidings in the towns where the trains will make stops. It was, of course, impossible for the trains to reach every locality in three weeks but they were routed so as to come close to almost every town in the district. They will be well worth driving or riding forty or fifty miles to see.

Listen to the "air raid alarm" siren. Each train will be equipped with one of the sirens which is blown in the European cities when the Hun is coming with his bombing planes.

Brother, Buy Another!

Brother, buy another bond! It will help to pave the way For the boys who've gone beyond The Atlantic to the fray. Do not falter. Do not say You have done enough, my brother, Buy another bond today— And another—AND ANOTHER!

What a blessed chance is yours Thus to do your humble part For the Freedom that endures Deep in every Yankee's heart! Give this Loan a rousing start With your glad subscription, brother. Every dollar is a Dart! Buy a bond—AND BUY ANOTHER! —William F. Kirk.

Teach me that sixty minutes make an hour, sixteen ounces one pound, and one hundred cents one dollar. Help me to live, or tip me off so that I can lie down at night with a Swell Conscience, without a Gat under my pillow, and unhaunted by the faces of the unfortunate ones to whom I have brought pain. Grant, I beseech Thee, that I may earn my meal ticket on the Square, and in doing thereof that I may not stick the Gaff where it does not belong. Deafen me to the jingle of Tainted Money and the rustle of Unholy Skirts. Blind me to the faults of the Other Guy, but put me Hep to my own. Guide me and put me Wise to myself so that each night when I look across the dinner table at my wife, who has been a blessing to me, I shall have nothing to conceal. Keep me young enough to laugh with my children and to lose myself in their play. And then when comes the smell of flowers, and the tread of soft steps, and the crushing of the hearse's wheels in the gravel out in front of my place, make the ceremony short and epitaph simple: "Here lies a man."

EARLY CHRISTMAS SHOPPING

There is a very general acceptance of the government recommendation that the Christmas shopping this year be distributed as far as possible through the months of October and November.

Merchants will be asked to carry their Christmas advertising during those months to a greater degree than formerly in order to encourage the buyers to cooperate in the movement to prevent congestion as the holidays approach.

This is a conservation movement designed to aid in the one great task of winning the war. Its purpose is to save fuel and to prevent the employment of large number of extra clerks, delivery men, etc., during the rush season usually created by the delayed shopping the last two weeks before Christmas.

If this request by the War Board is not complied with generally the purpose which it was designed to serve will be defeated.

It is difficult to impress upon the minds of many persons that if every individual does not cooperate in these great war programs they will in that exact proportion fail.

We should not depend upon the family next door, or upon the people in the large cities, or on some man richer than we, to do all of the things we are asked to do to help win the war. Patriotism of this type begins at home, first. We should not throw rocks at the other fellow until we are certain our own hands are clean.

If the merchants of Mt. Sterling, at the proper time, begin to open and display and advertise their holiday stocks, it will be the duty of the people to commence at once to make their Christmas purchases.

The government wants this done and it will be done. In all other requests made for patriotic purposes the people have responded promptly and gladly and they will do so as often as it is necessary.

Let there be no slackers.

TEN BUSINESS RULES

(Helen P. McCormick, official booster for the city of Binghamton, N. Y., offers the following suggestions:)

1. Keep human; business depends on the human equation.
2. Courtesy is the first law of business.
3. The knowledge of a man or woman's name is open sesame of confidence.
4. Don't expect interest if you are not ready to show it.
5. Artistic display of goods is half the sale.
6. Every dollar invested in a good clerk will return a hundred-fold.
7. A good location is money in the bank.
8. Variety is the spice of shopping.
9. Price, style and quality are all greatly to be cherished, but the greatest of these is style.
10. It is not always the butterfly who buys the most goods.

Love has as many moods as the ocean. It has its flood-tide, when the heart is filled to overflowing with adoration. Its ebb-tide, when love is slowly receding from the heart. Its storms when jealousy and wrong sweep the soul. Its calms, when love rests peaceful in its harbor. Its froth, when love is only passion. And it has its depths, when to bury one's self in the deep heart of another is all that life contains of the sweetest and the best.

You Can Lighten Their Load

ON THE shoulders of these two men rests a life-size job. You know the job. You know the men—Marshal Ferdinand Foch, commander of the allied forces in Europe, and General John J. Pershing, American commander-in-chief.

No American would wilfully add any to the burdens these two have to bear. No American would permit these men to worry about food or clothing or recreation for their men—about ammunition for the guns, about getting enough guns, about getting enough men.

Every Liberty Bond bought in the United States is an insurance against burdening these two great leaders with any unnecessary worries. They have demonstrated that they can handle the actual fighting. America at home must demonstrate that it can furnish everything that the fighting men need—and when they need it.

Three Million Buttons Bought for Fourth Loan

Buying three million buttons is just one of the minor tasks which had to be taken care of before the Fourth Liberty Loan campaign by Ralph Waldo Emerson of the War Loan Organization at Washington.

But on these trifles Emerson was able to save the government sixty-five thousand dollars in real money; a vast amount of celluloid, which contains gun cotton; an enormous quantity of white paper; hundreds of gallons of wood alcohol, and hundreds of hours of labor.

The saving was brought about by the employment of a steel engraving process. The old buttons have always been made with celluloid and paper.

The factories which are turning out the buttons for the Fourth Loan are distributed about the country so that shipping to the various federal reserve districts can be simplified and there will be no chance of any district being left at the last minute without its supply of little bond buyers' insignia.

Ever Thought What One Sailor Costs Us?

The cost of the U. S. Navy per man per day during the first six months of the fiscal year 1918 varied from 49c on the larger types of vessels to 52c on the smaller types. A \$50 Liberty Bond will keep a sailor for 102 days in the larger vessels and for 96 days on the smaller types.

TRY THIS FOR BILIOUSNESS

A bilious condition is indicated by loss of appetite, pain in the side, back and shoulders, restlessness at night, and a furrowed, foul tongue. There is often a feeling of depression, the eyes are dull, the face is sallow, and quite frequently constipation or diarrhea occurs. When any of these symptoms are present, a course of VIN HEPATICA is at once needed. Begin with a full dose to remove the poisonous matter from the bowels, and continue for a few days with a smaller dose.

Mr. W. B. Scruggs, of 3 Driftwood Street, Nashville, Tenn., who had been subject to spells of indigestion, cramps, and bilious colic for a long long time, writes: "My last spell came very near getting me. I got to the point where I didn't have any appetite, was all run down; couldn't sleep. But I took VIN HEPATICA and my appetite is again normal. I feel better in every way and more like doing my work. Don't have to get up at night, sleep well, and can heartily recommend Vin Hepatica."

You can get this wonderful Vin Hepatica treatment at W. S. LLOYD, Mt. Sterling, Ky., C. W. PETERS, Sharpsburg, Ky.

DRAFTEES CAN GO INTO THE NAVY

Provost Marshal General Crowder announced orders to local draft boards which will permit the voluntary induction of draft registrants into the navy and marine corps and provide for drafts of men to be assigned to those services if voluntary inductions do not suffice to fill the demands.

Calls for men for the navy will go out before the end of this month and marine corps contingents will be called within a few weeks.

The order, quoting sections of the man power law which makes the term military service include the navy and marine corps, announces that separate calls hereafter will be issued to secure men for all divisions of the service. State quotas will be allotted to fill the marine and naval requirements.

After a call has been issued marine and navy recruiting officers may ask for the voluntary induction of men to fill the call. If the total is not secured by that method, the boards will order sufficient men forward to make up the quota. The men will be mobilized and transported in the same manner as are those of the national army.

One responding either to induction or call method will be counted upon the State's quota as having been furnished for the nation's military needs.

MOONLIGHT SCHOOLS

ORIGINATED IN KENTUCKY

We see where Mrs. Alice Spencer Geddes Lloyd, of Boston, who in 1916 located at Ivis, Knott county, Kentucky, and started a small settlement has had circulated through the press of other states, the statement that she is the founder of the moonlight schools. It may not matter so much that she challenges the claim of Mrs. Cora Wilson Stewart, whom the world honors as the real founder of the moonlight schools, but it does matter to Kentucky that a Kentuckian born originated and gave the system to the world instead of a Boston woman who saw this state some five years after moonlight schools had been in operation, and after other states had adopted them. Also, it matters always that truth shall prevail. Mrs. Lloyd has a small center in Knott county where she is attempting to make a settlement. It is new. It is yet in the experimental stage. The press agent will not strengthen it by making absurd claims. Kentucky does not seek to claim that she founded Boston. I would be as true as for this woman from Boston to pose as the founder of moonlight schools.

Saving Coal Saves Money

And Helps The Nation

There's a wealth of proof to show that your home may be thoroughly comfortable at a third or a half less fuel than you have been using. The Caloric Pipeless Furnace is a remarkable fuel conserver. Many say it saves half. Here is just one sample letter taken at random out of thousands which the manufacturers receive from pleased Caloric owners:

"I am heating very comfortably seven rooms and not using any more fuel than I did with a double heater, heating only two rooms.—S. P. SEIBERT."

The Original Patented Pipeless Furnace

Over fifty thousand homes, many of them in this state, have found this furnace the economical, common sense method of keeping comfortable. They bought on a guarantee of real fuel saving and perfect satisfaction, and the Caloric made good.

One register delivers all the heat from the fuel directly into your living rooms and draws out the cold air, insuring an abundance of balmy, moist warmth right where you want it. The cellar is just right for the storage of perishable products.

The Caloric can be installed in a day. It is a triumph of engineering skill that embodies many patented features which have made it the leader and which are not found in imitations. Come in and see this wonderful furnace. We will tell you frankly whether it is adapted to your home. If we say it is, we will give you our personal guarantee that it will make good or we will take it out. Come in and talk it over.

Mr. Thomas Rodman has accepted a position with R. E. Punch & Co.

THE KENTUCKY FUTURITY—(\$14,000) Lexington, October 1, the only 3-in-5 race for 3-year-olds in 1918, looks like the greatest colt race ever programmed; for amongst the entries eligible to start are David Guy 2:05 1/4, Nella Dillon 2:05 1/4, Chestnut Peter 2:05 1/4, Blitsey 2:06 1/4, Peter June 2:07 1/2, Miss Dewey Watts 2:07 3/4, Ruth Main-sheet 2:08 1/4, Petrex 2:08 1/2, Peter Vonia 2:08 1/2, Echo Direct 2:09 1/4, Miriam Guy 2:09 3/4, all winners—and four more fast ones that have not won this year.

Mr. Will Ed Jones sold the past week a fine suckling mule for \$125 to Sam Ralls, of Sharpsburg. The colt was a fine specimen and the price paid was considered a handsome one.
